

GOOD TIME LADY

Gove

There's a girl I know who can show you a good time
And if you let her flow, she'll ease your troubled mind
There's a girl I know who loves a peaceful place
And if you just sit still you'll see it in her face

She's a mountain river, she's a raging sea
She's everything I've dreamed of having close to me
She's a book of poems, a perfect rhyme
To everything that passes through my mind

chorus:

You know she ain't a fancy girl, but just a good time lady
Lord, she's funky and she's crazy and the reason for this song
She's livin' in another world where everything is lazy
Knowin' full well the natural life ain't wrong
